SUPPLEMENT TO
REPORT NO.

30

25X1X 1. A large area was staked out east of Vinniki ($24^{\circ} 07' E / 43^{\circ} 49' N$), Ukrainian SSR, almost as far as the next village, directly south of the road to Ternopol ($\approx 35' E / 49^{\circ} 33' N$). Within the large area, bordered by woods to the south, was an about 2x1-km terrain surrounded by a wire fence. An asphalt road led from the bordering main road into the fenced-off terrain.

2. The following buildings were within the fenced-off area:

a. A guardhouse

b. A three-story brick building, about 12x8 meters, outwardly resembling a dwelling house. It consisted of a large room, similar to a machine room and three smaller rooms. The ceilings and floors were concrete. Only the framework was completed.

c. A concrete round excavation. 8 meters deep and 4 meters in diameter, similar to a water basin.

d. Two bunkers, each 2.5 x 4.5 x 8 meters with concrete floors and ashlar-lined walls. According to Soviet workers, the bunkers were to be used for the storage of gasoline drums.

3. Excavation work for a similar installation was under way on the main road to Ternopol, 3 km east of the above object.
4. The "transmitter station" was in a former farmyard about 4 km east of Lvov ($24^{\circ}0' E/49^{\circ}50' N$), between the railroad lines to Brody ($25^{\circ}9' E/50^{\circ}5' N$) and Ternopol, east of a village.
5. The installation consisted of:
 - a. The former farmhouse, $23.5 \times 10 \times 8$ meters. A 36,000-Volt underground cable led from the north to the largest room on the ground floor which was off-limits. Three Soviet army women officers were quartered in the three rooms on the ground floor.
 - b. An annex building, $15 \times 7 \times 5$ meters, of reinforced concrete, where the heavy current cable terminated and many lines met. Two large transformers, each about $2.1 \times 1.8 \times 1.8$ meters, two small transformers, each $2.1 \times 1.2 \times 1.2$ meters, were installed inside. The wiring diagrams had the inscription "Radio Breslau".
 - c. The former servants' house, a two-story building which was occupied by 15 Soviet officers.
 - d. A "cooling water tank," 10 meters in diameter, 2.2 meters deep, with 80-cm walls.
 - e. A braced steel transmitter tower, 45 meters high.
 - f. A new three-story personnel building, 14×6 meters, which was empty.
 - g. A new well with an electric pump.
 - h. A wooden storage shed with piled up boxes with the inscription "Asto-Roshni."
 - i. A wooden shed serving as workshop.

6. [REDACTED] at least eight new radio stations have been established in Lvov since 1948. Some of the stations were connected with barracks buildings.
7. The two stations in the Vinniki and Podbortse districts were about 4 km east of Lvov and 3 km north-northeast of Vinniki. (for layout see Annex 1)
8. Each radio station consisted of:
 - a. A machine and radio house, 24×16 meters
 - b. An equipment warehouse, 6×4 meters
 - c. A gasoline dump, 10×5 meters
 - d. A transformer house, 4 meters square
 - e. A water container, 7 meters in diameter, and a fountain
 - f. An administrative building, a joint building for both installations.
 - g. Two dwelling houses.
(see Annex 2)

comment:

a. This information describes the layout of two equal radio stations which are side by side. The attached sketch by source No 3 shows the striking similarity of both installations.

b. Other reports are required to determine whether the radio stations are to serve civilian or military purposes.
